Department of Transportation and Engineering
City Hall, 801 Plum Street 45202
Visit us at: www.cincinnati-oh.gov

ABOUT THE CITY STREET REHABILITATION PROGRAM

handles street resurfacing and significant curb repairs. This work includes grinding off old roadway surfaces, resurfacing the pavement with new asphalt, and repairing / replacing curbs where necessary. Residents may notice that the work is not continuous from start to finish on any given street, but it includes breaks for an extended period while the contractor performs work

on other roads. This is part of the scheduling to minimize costs. The job on a particular street is not complete until the pavement is fully replaced and smooth driving surface is restored. Every community in the City of Cincinnati will be evaluated for roadwork on a three-year rotation under the Street Rehabilitation Program. The streets listed in this brochure are scheduled to be rehabilitated during the 2012 and 2013 construction seasons.

Before work begins on a street, residents will be sent a post card identifying the name of the contractor performing the work and the city staff to contact for questions and concerns.

For additional information, visit the Department of Transportation and Engineering website at: www.cincinnati-oh.gov
